## Military Simulators

XM-1A Assembled per order. Self contained unit with external 12 volt battery. Unit comes with 2 bipod type legs. The rate of fire is adjustable. Unit is not water proof but is suitable for light mist, dew, and rain. Has external firing control that can be removed and connected to any contact point for remote operation. (N/O contact)

\$ 950.00 ea.

XM-2A Assembled per order! Unit is fully self contained and water resistance. It is designed for continuous outdoor operations. Easy opening side latches for servicing and battery change. It can be operated from its internal battery source or external 12V source. The trigger controls leads can be used manually or connected to a trigger source (N/O Contact) like a live fire target system, remote relay etc.

\$ 1150.00 ea.

Shipping is \$50.00 per unit to addresses in the continental US.

An optional cycle timer can be supplied to cycle the simulator on and off after the power is applied. Will allow for cool down if your trigger circuit fails to open and shut off the simulator. (Adjustable range)

\$ 100.00

**Add the Regulators, Hoses and shipping in US for an additional \$325.00 per unit.**

**REMOTE CONTROL UNIT:** Two channel units will operate up to 4 guns, 2 per channel. Range is 300 yards. 12V operation and can be powered off the simulator battery. Unit must be hard wired to the receiver. Weather resistance housing. Unit comes with 1 receiver and 1 transmitter.

RSS2 \$450.00

Extra transmitter: \$175.00 ea,

### Cannon's and Mortars quoted on request:

37mm Breach Ring Assy, M3A1 A/T, Stewarts, M8's etc.  
This price is if we make a breach ring assembly!

\$ 1,100.00

*Page 3*

## **Terms and conditions of the sale:**

All price above are for the assemble and conversion of your parts set if required, the firing controls, electronics, battery and US .30 cal ammo box. If a different ammo box is required, please let us know or include it with your parts set. You can have your parts set delivered to us directly to save on shipping costs. All parts are returned with the simulator.

**Return shipping is additional:**

We warranty all our work for 1 year from manufacture date, parts and labor if device is returned to our facility for repairs. Customer to pay inbound shipping and we will pay return shipping. Water damage, misuse and abuse are not covered.

Prepayment with order is required unless other arraignment are made and approved. Government, Military and Law Enforcement accounts are net 30 days.

We accept Check, Money Orders, Credit Cards (Visa and Master Card), and Official Purchase Orders.

Thank you for your interest in or products. We look forward to serving you in the future.

Over seas orders can be filled with the manufacture of a total dummy simulator with no real parts used. This makes this unit exportable. US Law prohibits the export of any firearm part without a permit. We can build you a nice looking simulator for your vehicle. Please inquire as to cost and shipping requirements.

These are not kits that can just be installed in a parts set gun. It requires machining, fitting, welding and many different operations. We can sell you the electronics, solenoids and the instructions on how to build a device but you will have to have access to a machine shop, the necessary materials and understanding of an Oxygen Propane conversion.

We can supply you with the instructions, electronics and other parts if you wish to build your own simulator. This is good for you overseas customers who cannot receive a converted parts gun via the mail services.

We will assemble all the components and instructions for you and can help via email as needed for one cost. Please inquire as to how we can assist you.

**This component kit is \$650.00 less the combustion chamber.**

*May 11, 2006*

*Page 4*

**We warranty the units for 12 months after manufacture. All sales are final as these are custom built per order. We will replace or repair as needed any defects in our work of materials as needed. All assembly of any parts kits are done as not to allow any parts set to be made into a live gun and will meet all ATF requirements.**

**Thank you**

*Earl Tucker*
